There will be a brief presentation at 5:30 p.m. and again at 6:30 p.m.

About the Gateway Corridor Commission: The Commission was created in 2009 to study and plan alternative transportation options for the area along Interstate 94 in the eastern metro of the Minneapolis-St. Paul region. The Commission is comprised of local elected officials and business

leaders. The Commission in early 2013 identified a preferred route for a fixed-guideway alternative in the Gateway Corridor. The project seeks to improve transit service from the Union Depot in St. Paul to the eastern metro, while providing a focal point for more concentrated development as the region grows.
