Greetings!

The preferred mode of transit and route have been selected. Now it's your turn to weigh in at the Aug. 7 public hearing. Please join us.

Preferred Route Selected

The Gateway Corridor Policy Advisory Committee passed a resolution July 24 recommending a locally preferred alternative, which includes bus rapid transit in a dedicated guideway as the mode of transit and a more specific route than previously identified along I-94 and Hudson Road.

Detailed information about the LPA is available [here](#) on the Gateway website.

→ LPA Timeline, July through December

Several steps are involved in moving the locally preferred alternative through its process. The ultimate outcome is to have the LPA included in the Metropolitan Council's Transportation Policy Plan, scheduled for completion later this year.

About the Gateway Corridor Commission: The Commission was created in 2009 to study and plan alternative transportation options for the area along Interstate 94 in the eastern metro of the Minneapolis-Saint Paul region. The Commission is comprised of local elected officials and business leaders. The Commission in early 2013 identified a preferred route for a fixed-guideway alternative in the Gateway Corridor. The project seeks to improve transit service from the Union Depot in Saint Paul to the eastern metro, while providing a focal point for more concentrated development as the region grows.
